Willie Nelson Wants George W. Impeached

by Paul Cashmere - February 19 2008

Willie Nelson has called for U.S. President George W. Bush to be impeached.

Appearing on the Alex Jones Show, Willie said that America should "throw the bastards out".

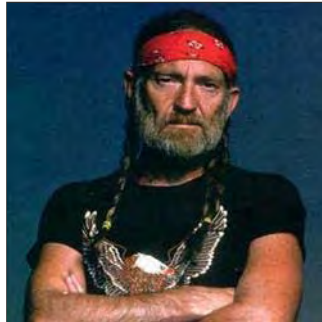

"If you break the law you have to pay for it one way or another and if these guys haven't broke the law nobody has." Willie said.

Nelson is a resident of Austin, Texas. Bush was a governor of Texas before becoming President.

The country superstar is not ruling out the possibility that Bush will stage an event to have the forthcoming US election cancelled. "It could be anything and anything will work because they have everyone scared to death, I just think there are people out there who will do anything to stay in power, anything to keep what they have, they've already proven they'll do anything to keep it," he said.

He calls Bush a "cherry-picked President". "They find them and they groom them and they put them in office and tell them exactly what to do and you give the speeches will small words and big letters and let them go," said Nelson.

The next US election will be in November.
